

740 SERIES MULTI-DISPLAY TIMERS

The 740 Series Multi-Display Timer includes both eight channel horizontal or vertical configurations.

These easy-to-use timers count down in minutes and seconds, or hours and minutes. Each channel has its own display, and can be programmed independently. Individual menu stickers identify the product being timed on each channel, and are replaceable as restaurant menus change. The sleek vertical design allows the 740 Series Multi-Display timers to be mounted anywhere in the kitchen, buffet or dining area.

Prince Castle timers are easy to program and simple to use. The push of a button activates each channel; an audible alarm and flashing channel button alert the operator when timing is complete.

Prince Castle timers are standard 120V and are backed by a one-year parts and labor warranty. International voltages are available.

FEATURES

- New slim design - only 1.09 in (2.77 cm) thick.
- Timers count down in minutes and seconds, or hours and minutes (maximum 59 minutes, 59 seconds or 59 hours, 59 minutes).
