

BON CHEF COLD WAVE CHILL TUBE

NEW

Bon Chef proudly introduces our new innovative *Cold Wave Chill Tube*. No more filling ice tubes with crushed ice. Simply put the cold wave tube in the freezer for 4 hours and insert into Bon Chef juice dispenser. The juice will stay cold for hours. Bon Chefs *Cold Wave Chill Tube* will fit in most existing ice tubes and will work better than ice. Just insert the cold wave tube into your existing ice tube.
