

ONE Touch Top Milk

Sophisticated Convenience

The EGRO ONE Top Milk combines style with convenient functionality. The well organized user friendly touchscreen showcases up to 48 drink selections across six completely customizable pages.

www.ranciliogroup.com

Touch Screen

The 5.7" touchscreen features six customizable pages which enable you to program up to 48 drink selections.

Option Self

By choosing the Option Self the machine will be delivered with lock package which includes locks for the bean hoppers, coffee grounds door, powder chute, and USB port. This option also includes a central outlet for coffee and milk.

Play Videos and Custom Images

Upload promotional videos or images to play while drinks are being poured. The custom screensaver will play your own images while the machine is idle. Training videos can be uploaded and stored on the machine and easily accessed for on-site training.

LED Lights

Brilliant LED lights illuminate the drink preparation area, resulting in a stunning visual design and they serve a functional purpose. Lights shine blue when the machine is ready, white when its brewing, red when its rinsing and green when an action is required during cleaning.

Dura-Brew

The ONE's brew unit features a patented Dura-Brew sealing technology which extends the life of the brew unit, reducing the number of PM visits needed and lowering the cost of ownership. In most applications only one PM per year is needed.
