Shipping Weight:	33 lb / 15 kg

DETECTO's USA-made T3530 series hanging dial scales feature a deep 13.5-in/34-cm diameter removable aluminum bowl with drain holes and stainless steel scale construction, making them ideal for foodservice or medical weighing use. Thermolastic springs, unaffected by extreme temperature variations, guarantee long-term accuracy while an air dash pot absorbs shock when loads are dropped on the scale protecting the mechanism and increasing the scale life.
