

Etlund U-12 NSF Manual Can Openers

Etlund proudly introduces the new Universal Series Manual Can Openers. The NSF certified U-12 opener includes many of the same design features as our popular S-11, with quick change gear, stainless steel slide bar and pull pin for easy blade replacement. Once again, Etlund raises the bar on can opener technology.

- NSF Certified
- Stainless steel blade and gear for longer life
- Replaceable base insert for a tighter fit and easier slide action
- Easily disassembled for easy cleaning
- Made in U.S.A.

Around these parts, we make great can openers.
That's the long and short of it.

The U-12 is available in both long and short bar lengths.

Both models available with choice of base options: plated screw down, stainless screw down or stainless clamp down base.

The U-12 is easily disassembled for increased sanitation.
