49018 Handheld Sharpener Display
Contains 18 of 49002
8½"H x 13½"W x 8½"D

49003 3Pass Edge Maker System

HOW TO "STEEL" A KNIFE

- Hold the steel firmly in your hand with the guard positioned to stop the blade should it slip.
- Hold the knife in your other hand and place on top part of steel as shown.
- Raise back of blade one-eighth inch.
- Now, moving the blade only, draw it across the steel in an arching curve, pivoted at your wrist. The blade tip should leave the steel about two-thirds of the way down.
- Repeat the same action with the blade on the bottom side of the steel. Always maintain the same pressure and angle on both sides of the steel.
- Repeat five or six times.

PACKER / TRIMMER STEELS

40589 5" Trimmer Blade, Regular Cut

40680 7" Trimmer Blade Regular Cut

41981 7½" Continental Cut
