

BELGIAN WAFFLE BAKERS

Models SWB7RBE & SWB8RBE

Features/Benefits:

- ★ Star's Belgian Waffle Bakers make belgian waffles for breakfast, snacks or anytime you want delicious waffles.
- ★ Heavy-duty cast aluminum round grids make an average of 20 waffles per hour. Waffles are 1-1/4" thick in the 7" model and 1" thick in the 8" waffle baker.
- ★ Heavy-duty hinge allows for rotating baker 180° insuring even distribution of batter for quality gourmet waffles.
- ★ Digital electronic timer from 0 to 9:59 minutes with digital temperature control from 250° to 425°F takes the guesswork out of preparing waffles.
- ★ Metal sheathed tubular elements located on top and bottom grid provide even heat distribution.
- ★ Easy to read on/off switch with indicator light signals when waffles are ready.

Applications:

From cafes and coffee shops to full service restaurants, Star's Belgian Waffle Bakers deliver delicious waffles day after day.

Quality Construction:

Star's Belgian Waffle Bakers are built of polished stainless steel with heavy-duty cast aluminum grids and feature a heavy-duty aluminum hinge. Metal sheathed tubular elements located in the top and bottom grids. Model SWB7RBE is provided with NEMA 5-15 plug for 120V and a NEMA 6-15 plug for 208V or 240V and CEE7-7 for 230V. Unit SWB8RBE is provided with NEMA 5-15 plug for 120V and NEMA 6-15 plug for 208V or 240V and CEE7-7 Plug for 230V.

Warranty:

Belgian Waffle Bakers are covered by Star's one year parts and labor Warranty.

Typical Specifications

Waffle Bakers are built of polished stainless steel and heavy-duty cast aluminum grids, uniform top and bottom. The grids are 7" producing a 1-1/4" and 8" diameter producing a 1" thick Belgian Waffle. The unit has a heavy-duty aluminum hinge for opening the top assembly when loading waffle mix and for rotating by 180° the head assembly when cooking. The Belgian Waffle Baker has metal sheathed tubular elements in both grids. A electronic temperature control to provide better temperature control. Belgian Waffle Bakers has digital electronic timer with precision settings, heavy-duty rocker switch with an indicator light and a stainless steel drip tray. The model SWB7RB has a NEMA 5-15 plug for 120V and a NEMA 6-15 plug for 208V or 240V and CEE7-7 for 230V. The model SWB8RBL has a NEMA 5-15 for 120V and NEMA 6-15 plug for 208V or 240V and CEE7-7 Plug for 230V. Units are listed by Underwriter's Laboratories. Printed in the U.S.A.
