

New Restroom Mats

Kleen Mats New From Continental!

167-1 and 167-2

168-1 and 168-2

Urinal and Commode Mats

Protection – Kleen Mats will protect all types of floor surfaces from the harmful effects of urine. Do away with those ugly yellow spots and stains. Extend the life of bathroom flooring.

Pays For Itself – CCP's new line of restroom mats will shave hundreds of dollars every year off the cost of restroom maintenance, all the while providing a safer, more sanitary way to deal with the problems of urine splash and drips around urinals and commodes.

Ease Of Maintenance – Kleen Mats make maintaining restrooms easier and faster. There's no need for multiple daily mopping to remove puddles and wet floors. When scheduled daily maintenance calls for wet mopping, these mats can be mopped over or removed for total floor cleaning.

Improved Appearance - Floor surfaces beneath urinals and commodes have long been the sore spot in every restroom's overall appearance. Urine odor caused by unsightly splashes and drips also creates a generally poor impression of a restroom's cleanliness.

Safe –Kleen Mats' super absorbency reduces moisture on restroom floors, thereby reducing slippery conditions. Because our product stays where it's put, it presents no safety hazard itself.

•Standing puddles of urine in the restroom can cause an unsafe and unhealthy environment.

•Damage to floors caused by uric acid is unsightly and expensive to repair.

•Kleen Mats can eliminate the problems caused by puddles or urine for only pennies a day!

Product Specifications
