# Prestige Plus Pass-Through Refrigerators

Combines pass through convenience with outstanding performance and cost-savings.

Introducing Prestige Plus pass-thru refrigerators from Beverage-Air. Designed with patented XSTREAM® valve technology from XDX® and a host of other innovations, Prestige Plus pass-thru refrigerators give you unprecedented performance, durability and value.

#### PLUS, a more efficient work flow:

- Available in single, double, and triple section units.
- A wide selection of shelf, pan, and tray configurations adapt to your business.
- Self-closing doors stay open at 120 degrees for easy access on either end.

#### PLUS, greater cost savings

- Optional glass doors allows customers to pre-select items before opening doors.
- Proprietary XStream Valve technology delivers better temperature stabilization, faster pull-down, and lower humidity. All while reducing your energy cost.
- Beverage-Air's exclusive down-duct air distribution system delivers a uniform, consistent air flow for the ideal environment.

#### PLUS, a cleaner, safer environment

- Using a patented silver-release antimicrobial coating on all door handles eliminates sanitation problems before they can spread.
- Stainless steel interiors and exteriors makes Prestige Plus the easiest to clean, lowest maintenance pass-through refrigerators in the industry.
