### 29" DEPTH WORKTOP REFRIGERATOR FOOD PREPARATION SERIES

MODELS:  
WTR27  
WTRD27  
WTR48  
WTR60  
WTR72

#### WORKTOP COOLERS

Versatile, compact (29" deep) models with stainless steel work tops and refrigerated storage of food products. Working height is 35-1/2".

#### Cabinet construction:

Heavy duty construction, #3 finish stainless steel on front, sides, door(s) and grille. Stainless steel 2-1/2" thick work top with 4" high removable backsplash. Exterior back and bottom made from galvanized steel. Interior liner is made of corrosion resistant anodized aluminum. Interior thermometer is standard.

Cabinets are insulated with foamed-in-place polyurethane insulation of 2" minimum thickness. Doors are mounted to cabinet self-closing on cam lift hinges with 120 degree stay open feature. Pull-out drawers (2) on Model WTRD27 will accommodate 12x20 pans by others. Each door or drawer equipped with a snap in place vinyl magnetic gasket for a positive seal. Double pull style door handle made of black anodized aluminum. 6" high casters are standard, 2 include brakes. An 8' cord set is provided with 115 volt models. Cabinet interior standard with two epoxy wire coated shelves per section, adjustable in 1/2 inch increments. Interior light with manual switch is provided with glass door models.

#### Refrigeration:

Refrigeration system utilizes R134a refrigerant metered by a capillary tube system. Automatic (non-electric) condensate evaporator is standard. Unique front breathing through grilles located below doors permits unit to be installed against back walls and curbs. Interior forced air system, with high humidity evaporator coils, provides the ideal environment for food preservation.
