Easy Slicer™ Vegetable Slicer

The only tool you'll need to slice fresh produce with incredible speed and precision.

Turns Every Kitchen Novice Into a Slicing Master

Name your vegetable or fruit and put anyone, even your most inexperienced kitchen personnel, on the job, and you'll get slicing perfection. Nemco makes it easy—fast, precise and consistent, every time.

Fast as Lightning, Without the Electricity

How many seasoned pros do you have in your kitchen who are sharp with a knife? With Nemco, it doesn't matter, because the Easy Slicer makes it possible for anyone to perfectly slice a vegetable in seconds—or a 10-lb. bag of potatoes in just minutes.

The best part is, with no electric power needed, the Easy Slicer's simple engineering and manual operation deliver reliable performance virtually anywhere in the kitchen.

Precise, But Versatile

The Easy Slicer features an exclusive visual thickness gauge, calibrated in $\frac{1}{16}$ " increments up to $\frac{1}{2}$ ", allowing the operator to preset the desired thickness with a simple thumb-screw control. (Also available in fixed-slice thickness models.)

Every slice in the rapid-fire cutting action that ensues is the perfect thickness, consistently all the way through the food item, for exceptional portion control and presentation, with virtually no waste.

Easy to Use, Easy to Clean

Just place your produce in the trough behind the blade and start turning the easy-action handle. It's nearly effortless. Plus, disassembly is easy for cleaning, while the cast aluminum components wash up in a snap and last for years.

Calibrated, easy-to-read, easy-to-set thickness gauge ensures precise, uniform slicing.

Optional portable food-prep base is equipped with a mounting bracket that fits the Easy Slicer and other food-prep products. Suction-cup feet provide incredible stability.

Ergonomic nut at base is easy to tighten for a secure foothold, and easy to loosen for quick breakdown, cleaning and storage of the unit.

Stainless steel blades remain razor sharp.

Optional shredding plates attach to the Easy Slicer in seconds for quick, easy shredding of cheese, cabbage, carrots and other foods.

Suggested Uses

The Easy Slicer is the do-it-all device for salad bars, sandwiches, pizza toppings and more.

Quickly and effortlessly slice peppers, lettuce, cucumbers and other firm veggies, or lemons, limes and other fruits—even strawberries and mushrooms.
