MT Mini Series

MT1 Mini

MT2 Mini

MT3 Mini

Add frozen drinks to your menu with the worlds smallest frozen drink dispenser! The Single bowl model is only 7 inches wide, perfect for any location.

Industry Leading Features

- **Magnetic Drive Slippage System** – Eliminates damage to the auger motor if product freeze-up occurs.
- **Freezing Chamber** – Solid freezing chamber freezes product quickly and efficiently.
- **"New Style" Faucet Piston** – Allows product to circulate around the piston, eliminating the potential of bacteria build up.
- **24 Hour Programmable Defrost Timer** – Simply set the timer to defrost any product, keeping it chilled & automatically turning back to the frozen mode at the specified time.
- **Washable Condenser Filter** – Easily accessible through the side panel of the machine.
- **360° Wrap-Around Graphics** – Helps merchandise the granita product resulting in additional sales.
- **Adjustable Slush Mode** – Allows you to set the slush consistency of the granita drink.
- **Cool Beverage Mode** – In addition to selling granita products, this mode gives you the ability to sell refreshing cold beverages such as fruit punch, iced cappuccino, lemonade & more. Thermostatically adjustable for proper temperature.

FrigoGranita

MT Standard Series

Dispense frozen cappuccino, fruit slush, smoothies, sorbet, & much more!

MT1PUL

MT2UL

MT3ULBL

MV2ULAF

Industry Leading Features

The MT Standard Series includes all the features found on the MT Mini Series plus the following additions:

- **Dual Surface Freezing Chamber** – Freezes product on the outside & inside of the cylinder as dual augers keep the product surface level & free of ice blocks.
- **Reversible Lid With lighted Graphics** – Provides maximum merchandising for your frozen drink sales.
- **Filter Indicator Light** – When lit indicates that the filter needs to be cleaned, eliminate unnecessary service calls!

Patented Magnetic Drive System

Magnetic Drive Slippage System.

- The Auger Motor Turns Magnetically Eliminating The Need For Front Or Rear Seals.
- Auger Fits Securely Over The Outside Of The Magnetic Drive System, Turning Via A Series Of Magnets.
- The Granita Product Is Encapsulated Inside The Bowl.
- Eliminates Damage To The Auger Motor If Product Freeze-Up Occurs.
- This System Lowers Maintenance Costs & Decreases Auger Motor Burnout.

** Standard & Giant Series only, the Mini Series uses a solid single sided chamber.

Dual Surface Freezing Chamber**

MT Giant Series

GIANT2

GIANT2BL

Bigger, faster, & more powerful! The Giant series dispensers offer 33% more capacity than similar style dispensers. Keep up with the demand for frozen beverages in high volume locations.

Industry Leading Features

The MT Giant Series includes all the great features found on the MT Mini & MT Standard Series plus the following additions:

- **Two 4 Gallon Bowls With "New Style" Faucet Piston** – Allows product to circulate around the piston, eliminating the potential of bacteria build up.
- **360° Wrap-Around Lighted Lid Graphics** – Extra large lighted merchandising graphics draw customers to the dispenser. The lid is also reversible & there are no unsightly wires to get in the way.
- **Visual Merchandiser** – The large clear bowls add visual impact & help to sell product.
- **Locking Lid & Faucet** – Prevents tampering with the product.
