Short Form Spec

The Alto-Shaam 100-HW is a hot food holding well with a stainless steel exterior. The hot well includes stainless steel interior walls with coved corners on two sides. HW and HWLF hot wells are controlled by an adjustable thermostat with a range of 1 through 10 and includes an indicator light. The thermostat control is attached to the hot well base by a 72" (1829mm) flexible and water tight conduit.

The hot well base is available in two depths. The 4-3/8" (111mm) deep hot well holds 4" (100mm) deep pans and the 6-3/8" (162mm) deep hot well holds 6" (150mm) deep pans. Both hot wells hold a combination of standard (gastronorm) pan sizes. The D4 and D6 hot wells include two (2) half/third-size pan divider bars. The D443 and D643 hot wells include three (3) half/third-size pan divider bars.
