

# Low Profile Meal Delivery Cart Now Available with Venting

Front View

Back View  
with Louvered Vents

- For maximum noise reduction during meal delivery, this cart is insulated with polyurethane, has molded in rails and durable, quiet, stainless steel casters.
- Two louvered vents and self-venting non-insulated ABS doors provide air circulation throughout the cart which optimizes food quality.
- Competitively priced versus comparable stainless steel carts.

# Cambro® 20-Tray Low Profile Meal Delivery Cart

Cambro understands that patient satisfaction surveys have become more critical to a healthcare organization's bottom line due to the changes in healthcare regulations. Cambro strives to assist foodservice directors to meet their meal delivery needs with continuous product improvements.

## Quiet

Large molded in handles on each end of the cart and non-marking 6" (15,24 cm) stainless steel lead in casters increase maneuverability through doorways, into elevators and over uneven surfaces. Molded in rails and polyurethane insulation minimize noise during transportation and service.

## Optimal Food Quality

Two aluminum louvered vents and self-venting non-insulated ABS doors provide air circulation throughout the cart which optimizes food quality.

## Easy to Clean

Tough polyethylene is easy to clean; carts are rust, dent, crack, chip and break-resistant. Built in bumpers protect walls and furniture.

## Economical

Cambro carts cost less than comparable stainless steel carts and don't require regular visits from the maintenance team to assist with removing rust, dents or scratches.
