AMERICAN CULINARY FEDERATION SEAL OF APPROVAL

Unlike other culinary product assurance programs, ACF's Seal of Approval program tests for more than just taste. ACF's Seal represents quality in an entire product, including application and ease of use, physical properties and performance. The Browne Thermalloy Stainless Steel line has been identified with the ACF Seal of Approval.

Earning the prestigious ACF Seal of Approval from America's most respected chef organization underscores the quality of the Thermalloy line, and the value of utilizing these kitchen tools for your organization; thus reinforcing Browne's continuing commitment to delivering long-term value to its customers with high quality, high-performance products.
