

COLOSSUS HEATED PLATE DISPENSER

Item Numbers

- DXIDPC20120
- DXIDPC30180

Item Number: DXIDPC20120

Application

The convected air super heated plate dispenser is ideal for the Induction systems.

Construction

The exterior is constructed of 18-gauge 300 stainless steel. Inner wall of the cabinet is constructed of .063 high-strength aluminum. All sides and top of cabinet are insulated with fiberglass for heat retention and energy efficiency. Cabinet is mounted on four 5" (10cc) extra-load swivel casters (two with brakes) with non-marking cushion tread wheel.

Heating System

The heating system is thermostatically controlled, using forced air with a 3200-watt element to heat the cabinet interior compartment. Unit is 208/220 volt, 60 Hz and features a 6' long 20-amp power cord and NEMA 6-20P plug.

Dispenser

Self-leveling dispensers are constructed of stainless steel with self-lubricating bearings that ride over vertical guide rods to prevent carriage binding. Accommodates 7" to 10.25" plates

Warranty

One year parts and labor.
