Model **BMJ390** Mega Mouth Juicer

Model **BMJ390** Mega Mouth Juicer

The Omega Mega Mouth Juicer is a continuous, pulp-ejection style juicer with one huge advantage. Its extra large feed chute accommodates larger portions and even whole fruits! This results in less cutting and a greatly reduced preparation time, allowing you to concentrate more on the juicing itself. Designed for commercial use, this unit is rugged and durable, yet attractive enough to be featured prominently in any kitchen. Simply flip the switch and watch as the Mega Mouth makes quick work of fruits and vegetables, extracting the maximum amount of juice in minimal time.
