T20 Footsaver® Safety/Anti-fatigue Matting

Available Colors: Black

Footsaver® features a rubber diamond plate top surface for traction, and a sturdy waffle support system on the underside for maximum comfort. Offered as a stand alone mat, or as an interlocking continuous length, this mat is perfect for assembly lines, welding areas, picking lines, and other heavy duty dry work areas. Footsaver® comes with molded-in beveled edges for a trip-resistant work platform.
