T31 Click Mat Solid Safety/Anti-fatigue Matting

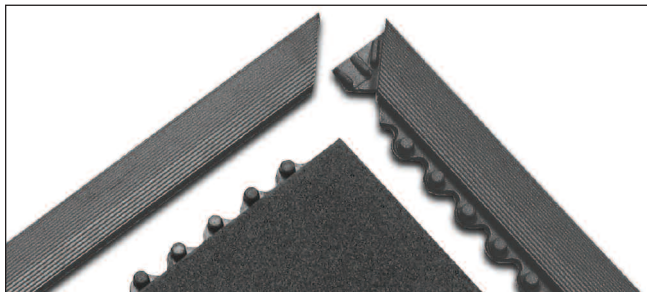

Available Colors: Black

Click Mat Solid is a resilient rubber anti-fatigue mat with a solid top anti-slip surface texture that's easy to clean, and a unique support design to provide exceptional fatigue relief. Click Mat Solid has molded-in mat connectors that allow for easy on-site custom configurations, and is made from a resilient rubber compound for greater resistance to oils, greases, and machine cutting fluids. Click Mat Solid has an available beveled ramp system to reduce trip hazards and allow for easy cart access onto and off of the mat.

Application Requirements:

Flexible configurations, Strong anti-fatigue properties,
Durable, Anti-slip properties

- Durable rubber compound protects against oils, greases, and machine cutting fluids
- Modular design with connecting system for longer lengths and custom configurations
- Beveled ramps available to reduce trip hazards and allow for easy cart access
- Superior anti-fatigue support
- Overall thickness: 3/4"
- Stock Sizes: 3' x 3'
