

Available Colors: Black, Red

Competitor® is a cost effective lightweight anti-fatigue mat with molded-in beveled edges for a more workstation oriented environment. Available in general purpose (black) and heavy-duty (red) rubber compounds for varying degrees of grease and oil protection, Competitor® has a lightweight design making it perfect for applications where the mat is routinely moved for cleaning. A large hole drainage system facilitates the removal of liquids and debris from the work area and the molded-in beveled edges reduce trip hazards and allow for easy access onto and off of the mat.
