EQUIPMENT SPECIFICATIONS

CONSTRUCTION, HARDWARE, INSULATION
Cabinet exterior and interior is constructed of stainless steel. Interior sides, back and front are also stainless steel. The exterior cabinet bottom is constructed of stainless steel.
Gasket profile and Santoprene® material simplify cleaning and increase overall gasket life.
Both the cabinet and doors are insultated with non-CFC, foamed in place polyurethane.

DOOR/ACCESS
Front sliding protects gasket(s). Lockable lift up top access door.

REFRIGERATION SYSTEM
A balanced, top mounted side and front and rear breathing, refrigeration system using environmentally friendly, non-flammable R-450A refrigerant is provided. It features an air-cooled hermetic compressor and a forced air evaporator coil. Dial thermometer. An 8' cord and plug is provided. Standard operating temperature is 34° to 38°F (1.1° to 3.3 °C).

INTERIOR/DUNNAGE RACKS
Heavy duty removable dunnage racks protect cabinet and promote airflow.

WARRANTIES
Both a three year parts and labor warranty and five year compressor parts warranty.

NOTE:
* Figures in parentheses reflect metric equivalents.
1. Net Capacity cu. ft.
2. MDEC = Maximum Daily Energy Consumption
3. Based on a 90°F ambient and 20°F evaporator.

Equipped With One NEMA 5-15 P Plug

Note: When ordering please specify: Door Access, Caster Height and Other Options.
Continued product development may necessitate specification changes without notice.
