Design and Construction Features

- Patented QuadTruss® design (patent #5,390,803) makes shelves up to 25% stronger and provides a retaining ledge for increased stability and product retention.
- Available in 18" and 24" (457 and 610mm) widths and 36", 48" and 60" (914, 1219 and 1524mm) lengths.
- Complete shelving unit in one box.
- The combination of numerically-calibrated posts, tapered split sleeves, and shelf collars makes assembling these units a simple, three-step exercise:
 - 1) assemble two-piece post by threading top half onto bolt in lower half;
 - 2) snap split sleeves onto post over number of your choice;
 - 3) and slide shelf collar over split sleeves.
- A positive lock between shelf and post is created without the use of any tools.
- Shelving units may be adjusted or completely changed just as easily.
- Offered in five finishes: EAGLEbrite® zinc, chrome, Valu-Master® gray epoxy, Valu-Gard® green epoxy, and EAGLEgard® green epoxy.
