Single-Deep Floor-Trak® Systems —for use with Wire Shelving

MODELS:

- SDFT-* TEP74-*
- SDSK-* TEP86-*

* See charts for complete model numbers.

- Floor-Trak® system designed for use with wire shelving units.
- Consolidates space.
- Low profile, non-corrosive track constructed of stainless steel and anodized aluminum.
- The system is ADA-compliant.
- Simple and easy to install.
- Easy to add on additional units.
- Open construction allows for the use of cart covers when required.
- Industrial-type, hardened steel bearings allow loaded units to glide effortlessly over the track.

Wire Shelving (sold separately)

- Patented QuadTruss® design makes shelves up to 25% stronger.
- Open-wire construction promotes higher visibility and reduces dust build-up.
- Posts are numbered in 1" (25mm) increments for fast and level assembly.
- Many finishes available—from zinc to stainless steel.

Bumper Brackets available:

- Helps prevent shelf unit from tipping over due to uneven floor or due to unevenly distributed weight of shelf contents.
- Once installed, brackets hover over track of Floor-Trak® system, but do not make contact with track unless shelf unit begins to tip over.
- Easily attaches to skate kit of any Floor-Trak® system, along with post of adjoining shelf unit.
- All-welded stainless steel construction, with heavy duty ¼" (6mm)-diameter rod.
