KITCHEN CART KIT & BEER KEG RACKS

### Beer Keg Racks - Chromate Finish

These racks endure the heavy load of full kegs and the continual impact of being loaded and unloaded. 2 shelf design doubles storage capacity and creates a neat and orderly way to store kegs for easier identification of inventory and rotation of stock.

The uniformly distributed static load capacity is 1,300-pounds (591 kg) for 48" (121.9 cm) shelves and 1,000 pounds (455 kg) for 60" (152.5 cm) shelves. Removable wire deck (5/16" / 8.0 mm) fits over reinforced 1" (25 mm) square tubular frame, lifts off for easy, thorough cleaning, and makes loading and unloading kegs much easier.

54" (137.0 cm) high units consist of 2 each heavy duty shelves with wire mats, 2 each three sided frames for added strength and stability, and 4 each 54" (137.0 cm) posts with leveling feet. 63" (160.0 cm) high units consist of 2 each heavy duty shelves with wire mats, 2 each three sided frames for added strength and stability, 1 each wire shelf, and 4 each 63" (160.0 cm) posts with leveling feet.

Item #	Dimensions (width/length/height)		Keg Capacity
