FOCUS SHELVING

Black Epoxy Coated Wire Shelving

The black color provides an excellent complement to any décor and creates an effective vehicle for displaying product.

- **Design:** The open wire design of these heavy gauge black epoxy coated shelves minimizes dust accumulation and allows a free circulation of air, greater visibility of stored items and greater light penetration.
- **Versatile:** FOCUS SHELVING can change as quickly as your needs change. By using various sizes, hundreds of shelving configurations become possible.
- **Fast and Secure Assembly:** Posts with the double groove visual guide feature, have circular grooves at 1" (25mm) intervals. A tapered split sleeve (plastic) snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves to lock on the shelf. Shelf is assembled in minutes without the use of any special tools.
- **Shelf Ribs:** Run front to back, allowing you to slide items on and off shelves smoothly.
- **Shelf Accessibility:** Shelves can be adjusted at 1" (25mm) intervals along the entire length of the post.
- **Durable:** FOCUS black epoxy coated shelving is rugged, standing up to years of heavy use.
- **Adjustable Feet:** Bolt levelers compensate for uneven surfaces.
- **Strength:** Each shelf up to 48" in length is rated to support up to 800 lbs. of uniformly distributed weight. Shelves longer than 48" support 600 lbs.
