FPS-PLUS™ POLYMER SHELVING
with SaniGard™ Anti-Microbial Protection

FPS-Plus includes removable shelf mats that are easily taken off frames to be washed by hand or in a dishwasher. Wire frames have the same tapered shelf collars found on other Focus shelving to insure strong and sturdy support.

- **Durability:** Polymer shelf mats are corrosion and impact resistant. Polymer will not rust, chip or corrode.
- **Sanitary:** Polymer shelf mats are easily removed from wire shelf frames for cleaning in sinks or dishwashers.
- **Strength:** Each frame consists of strong steel corners and heavy-duty side and center truss construction to insure a sturdy and stable weight bearing surface.
  Uniformly distributed weight bearing capacity per shelf:
  Up to 48" (122.0 cm) - 800 lbs. (363 kg)
  54" (137.0 cm) and longer – 600 lbs. (275 kg)
  2,000 lbs. (907 kg) maximum per stationary unit.
- **SaniGard Protection:** SaniGard Anti-Microbial Protection keeps FPS-Plus shelving cleaner by continuously fighting the growth of stain and odor causing bacteria. Shelving can be a breeding ground for microbes, and the 24/7 protection of SaniGard provides an added level of protection. SaniGard is incorporated into the plastic material and green epoxy during the manufacturing process, so it won't wash off or wear away. It is protection that lasts for the useful life of your shelving.

  SaniGard is safe for people and the environment and has been proven effective as tested by independent laboratories. While not a substitute for thorough cleaning and good sanitation practices, SaniGard can make an important contribution to a more sanitary foodservice operation.
- **Flexibility:** FPS-Plus shelves are compatible with our other storage solutions: HDS-Plus High Density Shelving, direct mount wall shelving, and post mount wall shelving. By using standard green posts, standard shelving casters may be used to create a mobile solution.
- **Versatile:** FPS-Plus Shelving can change as quickly as your needs change. By using various sizes, hundred of shelving configurations become possible.
- **Shelf Accessibility:** Shelves can be adjusted at 1" (2.5 cm) intervals along the entire length of the post.
- **Adjustable Feet:** Bolt levelers compensate for uneven surfaces. Polymer foot caps protect cooler floors from rust spots.
- **Fast and Secure Assembly:** Posts have a double groove visual guide feature, and contain circular grooves at 1" (2.5 cm) intervals and are numbered at 2" (5.1 cm) intervals. A plastic tapered split sleeve snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves to lock on the shelf. Shelves are assembled in minutes without the use of special tools.
- **Warranty:** Polymer shelf panels have a lifetime warranty against rust and corrosion. Posts and wire frames have a twelve year limited warranty against rust and corrosion

FPS-PLUS™ POLYMER SHELVING WITH SANIGARD™ ANTI-MICROBIAL PROTECTION

FPS-PLUS™ POLYMER SHELVING WITH SANIGARD™ ANTI-MICROBIAL PROTECTION

Job _____

SPECIFICATIONS

Shelf Frames: Zinc plated carbon steel with green epoxy coating

Polymer Shelf Mats: Polypropylene

SaniGard Anti-Microbial Protection is integrated pre-production of polymer shelf mats and green epoxy.

NSF Listed for all environments

Temperature Rating: FPS-Plus Shelves can be used continuously within a range of -20/120° F (-29/49° C).
