

SE36A-TTB
with optional
casters and
marine kit.

Application

You can saute, braise, pan fry, griddle, boil, stew, simmer, bake, brown, roast and reconstitute with the Southbend heavy-duty range.

General Information

Heavy-duty electric range with deck oven, convection oven, or Truvection oven base. Range is 36"W x 38-1/2"D x 38-1/4"H including legs.

Construction

The frame of the range and oven is welded aluminized steel with stainless steel front, sides and top. Grease troughs are located at front and rear for drainage, with grease chutes into two wide, drawer-type receptacles. The griddle models are furnished with splash guards surrounding back and side of the griddle section. Range is 100% front serviceable.

Convection Oven (SE36A)

The convection oven is provided with stainless steel inner lining, stainless steel throat, vent with damper and shelf-type, stainless steel lined door. Removable rack supports to accommodate six racks are installed on the interior sides of the oven. The blower fan is powered by a sealed ball bearing motor. Oven is fully insulated on all sides.

Standard Oven (SE36D)

The deck oven is provided with aluminized steel inner lining; removable deck of rigidized steel; vent with damper; and shelf-type, stainless steel lined door. The oven is insulated on all sides. Comes with 1 rack capacity(1 rack position and 1 rack).

Truvection Oven (SE36T)

7.5KW, deck oven is provided with coved porcelain enamel finish, dependent doors with windows (Full180°opening), oven interior light, 1/2 hp two-speed fan motor, electronic ignition, cool down fan mode, oven "ready" light, and standard controls (150°F to 500°F solid state thermostat and 60 minute mechanical cook timer). Oven heating is regulated by an adjustable thermostat control. Blower fan circulates air within the cavity "scrubbing" heat to the oven interior for even heat distribution within the cavity.

Electrical

Wiring is connected at a terminal compartment in the base. Knockouts are provided in the bottom and back for power supply entrance. See electrical data for kW rating of range tops, ovens and Truvection oven base.

Heating

Heating is accomplished with formed tubular elements clamped underneath each griddle and rectangular hotplate. The TTT has 4 heating sections for the 36" x 24" griddle. The TTB and the TTH have two heating sections under the 24" x 24" griddle. The oven heating element is located on the side of the cavity encircling the oven blower fan. Oven will preheat to

450°F in 20 minutes.

Controls

Range-top section controls are mounted in a central ventilated control panel, hinged for easy service access. 9" solid round hotplates are controlled by an indicating 3-heat switch. The 12" x 24" hotplate sections on the HHH, HHB and TTH are controlled by a thermostat with a temperature range of 250°F to 850°F. The griddle sections on the TTT, TTB and TTH are controlled by a thermostat with a temperature range of 150°F to 450°F. Range is provided with a 2 hour timer adjustable from 6 to 120 minutes (timer has a bell signal). The oven temperature is controlled by a thermostat adjustable from 150°F to 450°F. Each thermostat is provided with an "OFF" position. Each 9" diameter hotplate is provided with a 4-position, 3-heat switch "HIGH"/"MEDIUM"/"LOW" and "OFF" settings. An indicator light is associated with each thermostat, indicating when preset temperature is reached and cycles on or off. Oven section includes a "HIGH"/"LOW" fan speed switch.

Convection Oven Capacity

The convection oven has a capacity for (6) 20-7/8" x 28-1/4" racks. Three racks with positive stops are furnished. Oven has a clearance height of 13-1/4".

Standard Oven Capacity

The standard oven is provided with a slide out removable rack. Oven has a total meat capacity of 60 lbs. Oven has a clearance height of 12-1/2".

Each oven rack will accommodate (2) 12" x 20" #200 pans, (1) 18" x 26" roll pan, (1) 18" x 24" meat pan, (10) standard 1 lb. loaf pans or (6) 9" pie tins.

Truvection Oven Capacity

Heavy-duty removable wire rack guides spaced on 1-5/8" centers offer 5 different rack positions. 3 wire racks provided with each oven. Oven interior dimensions: 29"x21.5"x 14".

Warranty

Warranted for one year covering parts and labor.

Ordering Information

Basic Models - 208VAC or 240VAC or 480VAC (3 phase) voltage must be specified. If unit has a standard oven or a convection oven base Specify "assembled" or "hatchable". Hatchable is packaged in two sections that can pass through a 26" wide door for assembly in kitchen. Truvection units are NOT hatchable.
