Legs, set of four, metal, 4" adjustable, 20563

Wells TMPT Food Warmer is designed to hold heated foods at desired serving temperature and can be operated wet or dry. The two 12" x 20" warming wells easily adapt to hold a mixture of fractional inset pans, allowing for a variety of product servings.

Features

- 12" x 20" warming pans are deep-drawn, stainless steel construction and easily accommodate a variety of fractional or round inset pans up to 6" deep.
- The tubular elements, located under the warming pans, allow for quick heating.
- A positive-off thermostat controls each element, allowing for adjustable and more consistent temperatures. A signal light indicates that the heating element is energized.
- Controls are mounted with a protective guard ring to help prevent accidental temperature changes.
- Designed for wet or dry operation.
- Warmers are Underwriters Laboratories, Inc. LISTED and meet NSF International standards.
- A one-year warranty against defects covers parts and labor.
