# KitchenAid® 9-Cup Food Processor

KFP0922

## Exceptional Performance

### Precision Performance and Results

Specially engineered speeds and cutting system process foods with ultimate precision. When perfectly sliced tomatoes, mushrooms, or any other soft food needs processing use the LOW speed. The HIGH speed slices or shreds hard foods, such as potatoes, carrots or cheese.

### Thick to Thin – The Adjustable Slicing Blade Does it All

One disc, endless options. Use the adjustable stainless steel slicing disc, with specially designed blades, to process everything on the menu. Slice thin tomatoes for salad, thick cheese slices for burgers and potatoes slices for chips, all with one disc.

### Ultra Wide Mouth™ Feed Tube

The Ultra Wide Mouth™ Feed Tube adjusts to 3 different widths, accepting many whole foods and various shapes for processing. Whole tomatoes, potatoes and cucumbers easily pass into the processor with minimal prep.

## Enduring Design

### Comfort Design Side Handle

Newly designed side handle offers comfort. Handle placement also allows for easy viewing in bowl when in use.

### BPA-Free Bowls and Lids

BPA-free bowls offer two valuable qualities; for processing all foods and dishwasher safe.
