

The Ultimate Outdoor Char-Broiler

CBBQ-60-CP with Optional 30" in-line griddle & wind guard

Specifications

The Ultimate Outdoor Char Broiler are designed for broiling, grilling, steaming, roasting and holding all in a single piece of equipment.

CBBQ models feature 30" wide (762mm) or 60" wide (1524mm) by 24" deep (610mm) broiling areas. All models come standard with an all stainless steel exterior, an 8" deep (203mm) stainless steel work deck, stainless steel valve panel, stainless steel water/grease pans, heavy-duty nickel-chrome plated removable top grates.

Built-in models come with front removable water/grease pans and roll-top hood(s).

Base models come with stainless steel stand, legs, casters (two with locks).

Packages also include mobile tank caddy and 40 lb L.P. tank(s).

Complete Packages also include the customer's choice of roll-top hood(s) or wind & splash guard(s).

20,000 BTUH steel burners are located every 7" (178mm) for maximum top heat intensity and greater production with independently controlled, adjustable burner valves for precision control and energy efficiency.

Standard crossover pilot tube system provides additional safety, energy savings and ease of operation.

Exteriors are fabricated of heavy gauge type stainless steel. Interiors are fabricated high heat resistant aluminized steel. Overall exterior dimensions are 33 1/2" deep (826mm) and either 32" (813mm) or 62 1/2" (1588mm) wide. Height is 36" (915mm) overall including stand, legs and casters.

One (1) year limited parts and labor warranty included.
