"-4" and "-5" units are stackable

CONSTRUCTION... All stainless steel exterior with aluminum shelves and product lids; gusseted and riveted double wall construction.

BASE FRAME... Constructed of stainless steel. 12 gauge stainless steel base.

STACKABILITY... Four-shelf and five-shelf units are stackable, without the need for a stacking kit.

CASTERS... 3" diameter casters with rubber tread. All swivel casters, fitted with brakes.

DOORLESS PASS-THROUGH

DESIGN... Individually heated shelves accommodate steam table and sheet pans. Doorless, pass-through design allows access from front and back of unit.

LIDS... Fully integrated aluminum lids are removable. Lids in place seal in moisture in 12"x20"x2.5" steam table pans. Easy to remove and clean.

CONTROLS... Electronic temperature controls with countdown timer and audio/visual alarm. One control for units with four and five shelves. Two controls for units with eight or ten shelves. Control allows user to program temperature in one degree increments up to 225°F (108°C). Timer can be set for up to 9 hours, 59 minutes, in one minute increments. Countdown converts to seconds when less than one minute is left. On/off rocker switch.

HEATING SYSTEM... Individually heated shelves. One tubular element and black hard coat aluminum plate for each shelf. Top shelf has an additional top mounted heater.

ELECTRICAL CHARACTERISTICS... Four and five shelf units: 120 volts, 15 Amps, 60 Hz, single phase; NEMA 5-15P grounded plug with six foot cord. Eight shelf units: 208 volts, 20 Amps, 60 Hz, single phase; NEMA 5-20P grounded plug with six foot cord. Ten shelf units: 208 volts, 20 Amps, 60 Hz, single phase; NEMA 5-20P grounded plug with six foot cord.

DF Series Doorless Holding Cabinets Universal Shelves

Since 1947, Foodservice Equipment That Delivers!

DOORLESS PASS-THROUGH DESIGN... Easy access to pans - no need to open and close doors. Ergonomic pass-through for two-sided access and easy transfer from kitchen to serving area - connect your kitchen to your serving line with ease. Improves kitchen traffic flow.

UNIVERSAL HOLDING CAPABILITY... Unique design allows for a variety of holding environments in a single cabinet. Hold moisture-sensitive covered foods and uncovered foods all in one cabinet. Individual shelves eliminate flavor transfer between held items.

HEATING SYSTEM... Individually heated shelves keep food warm via direct contact with food pans.

STACKABILITY... Four-shelf and five-shelf units are field stackable, without the need for a stacking kit. Base of one unit (with casters removed) can nest inside the top of another unit (with top cover removed) using same fasteners and holes from cover.

USER-FRIENDLY DIGITAL CONTROLS... Allows for full control of cabinet temperature for optimal food quality and holding time. Shelf temperatures and holding times can be independently controlled. Audible alarm signals end of hold cycle.

BUILT-IN LIDS... Covers seal in moisture and keep moisture-sensitive food fresh. Removable without tools for uncovered holding and easy cleaning.

HASSLE-FREE HOLDING...

Door-free
Water-free
User-friendly controls
