Features

Includes Agion® silver-based antimicrobial product protection of key water contact components[1]

Two capacities to choose – 3,000 or 15,000 gallon (11,340 or 56,700 liter)

System includes pre-filter, primary filter, pressure gauge and wall mounting bracket

Better tasting, cleaner, ice and water
- includes Micro-pure® II media (item# 00130229) or Fibredyne™ media (item# 00978957), both featuring Agion antimicrobial product protection to inhibit the growth of biofilm and enhance filter performance[1]
- traps dirt as small as 0.5 micron in size
- removes chlorine, off-tastes and odors
- advanced filtration system filters out parasitic cysts
- certified to ANSI/NSF standards 42 and 53

Improves ice machine performance
- dramatically reduces the most common water-related ice machine problems to keep ice machines functioning at full capacity
- reduces scale build-up from dirt and minerals in the water
- removes dirt and abrasive particles that can damage ice machine
- saves energy and reduces downtime

Space-saving design
- both systems can be mounted in areas as small as 14.75" (45.0 cm) wide by 21.00" (53.3 cm) high or out of the way below standard 34.00" - 36.00" (86.4 cm - 91.4 cm) counters

Pre-filter system saves money
- economical 10 micron pre-filter filters out large particles and extends life of primary filter
