### HEARTH CAPACITY

8" pizzas:	40
10" pizzas:	24
12" pizzas:	15
16" pizzas:	8

Assuming 5-minute cook times, the approximate maximum hourly production capacity can be calculated by multiplying the above numbers by 12. Cook times will also vary depending on "style" of pizza. Note: The addition of a decorative flame will decrease space and impact overall cooking capacity.
