

WORKSHOP[®] MD

WET/DRY VACS

With over 45 years of Wet/Dry Vac engineering and manufacturing excellence under our belts, we produce quality vacs, accessories and filters for commercial users, construction professionals and do-it-yourselfers. WORKSHOP Wet/Dry Vacs deliver unmatched power, performance and durability and include thoughtful features that make our vacs easier and more convenient to use. Multiple filtration options, including HEPA* Media, dust collection bags and our patent-pending Wet Filter help keep the environment free of harmful contaminants, vac components free from damage and make debris disposal more convenient. Our patented Qwik-Lock™ filter fastening system makes filter cleaning and replacement a breeze...no need for tools, caps or fasteners.

WORKSHOP innovation doesn't stop at the filter. The patent-pending Dual-Flex™ locking hose allows for 180° flexibility at both hose-ends, resists crimping and collapsing and remains securely attached to the vac during use yet detaches quickly and easily for storage. To make your clean-up time even faster and more trouble-free, try the new Roll Tight™ locking sleeve which makes loose wand and accessory connections a thing of the past.

Whether its a general purpose vac, a high-powered, portable vac, a Contractor Vac or our Mobile Vac Station, with WORKSHOP...your mess has met its match!

*HEPA – High Efficiency Particulate Air

Because after all, isn't that what it's really all about? Whether you're cleaning up the job site mess, a flood from a leaky appliance, your dusty garage or a cluttered car, you need a WORKSHOP Wet/Dry Vac to get the job done quickly and efficiently.

*5 Year Household Use, 1 Year Commercial Use.
See Website for Details. www.WORKSHOPvacs.com/Warranty

Gallons indicated reflect drum volume, not necessarily collection capacity.
Actual capacity dependent upon type of debris collected, condition of filter, and other factors.
Peak Horsepower represents a level at or below the maximum horsepower output of an electric motor tested in a laboratory using a dynamometer.
All specification data subject to change without notice.

COMPACT VAC
WS0250VA

WS25011A

CARTRIDGE FILTERS

WORKSHOP cartridge filters not only protect the vac's internal components from damaging debris, but also prevent harmful contaminants from re-entering the atmosphere. There's a filter to stop all sorts of debris, from everyday dirt to drywall dust to pollens and allergens. There's even a WET ONLY filter for the most demanding, high volume water-borne debris situations.

WS11045F WS21200F
STANDARD FILTERS
 5 Microns @ 95% Efficiency

Best For

- Sawdust
- Typical Basement, Garage, or Car Dirt

Short filters (WS11045F & WS12045F) fit 3 to 4.5 gallon vacs plus WS0500VA.

All other filters fit 5 to 16 gallon vacs, except WS0500VA.

WS12045F WS22200F
FINE DUST FILTERS
 1 Micron @ 99% Efficiency

Best For

- Same as Standard Filter Plus...
- Drywall Dust
- Cement Dust
- Cold Ashes
Fireplace
BBQ Grill
- Fine Powders
Flour
Talcum/Baby Powder
Chalk

DUST COLLECTION BAGS

Dust bags make collection and disposal of dry debris cleaner, easier and more convenient.

WS32045F
 Fits 3-4.5 Gallon Vacs

WS32090F
 Fits 6-9 Gallon Vacs
 plus WS0500VA

WS32200F
 Fits 12-16 Gallon Vacs

Best For

- Dry, Everyday Dirt And Fine Particle Debris Like Drywall Dust
- Note: These bags only work and fit vacs with inlets in the collection drum.

PATENTED FILTER FASTENING SYSTEM

Makes installing and removing your filter quick, easy and secure.

WS23200F

HEPA MEDIA FILTER

0.3 Microns @ 99.97% Efficiency

Best For

- Same as Fine Dust Filter Plus...
- Pet Dander
- Pollens
- Allergens
- Fine Indoor Particles
- Upholstery
- Dust Mites
- Mold Spores
- Dryer Lint
- Furnace Filter

WS24200F

WET ONLY FILTER

For

- High-Volume Liquid
- Water-Borne Debris

The wet filter has a foam outer layer with structural resin core designed to add protection for your vac during high volume liquid pick-up.

FILTER MAINTENANCE

Cleaning or replacing your filter regularly helps minimize motor load and extends the life of your vac. We recommend changing your pleated paper filter at least twice a year.
